

Medical Oxygen Sensors

**The only source for all OEM and replacement
respiratory and anesthesia O₂ Sensors**

Unmatched Quality Control

Every sensor is subjected to extensive quality assurance testing providing you with documented test results and the most reliable oxygen sensors available today.

Longest Expected Life

With our technology, sensors are expected to last up to 5 years in normal use.

Realistic Warranty

Sensors are warranted for up to 18 months based on 60-70% Oxygen levels.

Superior Service

The most common products ship within 24 hours. Knowledgeable engineers and service representatives are trained and ready to assist.
